### DOCUMENT CONTROL

---

#### Controlled Document - SOP - PrimusGFS Module 1 FSMS

|                            |                    |
|----------------------------|--------------------|
| Document No.               | 1.02.01            |
| Revision                   | Rev. 1 - June 2026 |
| Prepared By                |                    |
| Approved By (Name / Title) |                    |
| Approval Signature / Date  |                    |
| Next Review Date           |                    |

*This controlled document is maintained under the Goodness Gardens Food Safety & Quality Management System and the PrimusGFS audit scheme. It must be reviewed at least annually, after any deviation or audit finding, and whenever processes, products, or regulations change. Printed copies are uncontrolled.*

## 1. Objective

Establish control of all food safety documents and records so that only current, approved versions are in use at Goodness Gardens facilities.

## 2. Scope

All FSQA documents: policies, SOPs, work instructions, forms, logs, and external standards, at all GG sites.

## 3. Responsibilities

- The FSQA Manager is the document control owner: approves, issues, and retires documents.
- Department leads ensure only current versions are posted or used at stations.
- All employees use only controlled copies; uncontrolled printouts are for reference only.

## 4. Procedure

- Each document carries a Document Control Number (PrimusGFS-aligned numbering), revision, date revised, and author/revisor initials in the header block.
- New or revised documents are drafted per 1.03.01, reviewed by the FSQA Manager, and approved before issue.
- The master document register (this system + the Drive master folder) lists every controlled document, its number, type, and revision.
- Obsolete versions are removed from points of use; one historical copy is archived and marked

OBSOLETE.

- Documents are reviewed at least annually, and after any process change, audit finding, or regulatory change.
- Records are completed in ink or electronically, legible, signed and dated, never altered with correction fluid
- corrections are single-line strikethrough with initials.
- Records are retained for a minimum of 24 months or as required by regulation/customer, whichever is longer.

## **5. Records**

- Master document register; archived obsolete documents; annual review log.
