This controlled document is maintained under the Goodness Gardens Food Safety & Quality Management System and the PrimusGFS audit scheme. It must be reviewed at least annually, after any deviation or audit finding, and whenever processes, products, or regulations change. Printed copies are uncontrolled.

1. Objective

Verify through scheduled internal audits that the food safety system is implemented and effective.

2. Scope

All GG facilities, all PrimusGFS modules applicable to each site.

3. Responsibilities

- FSQA Manager maintains the audit schedule and qualifies auditors.
- Auditors must be trained and independent of the area audited where practical.

4. Procedure

- Monthly GMP internal audits are performed at each facility using checklist 1.04.01R-IA-GMP (organic addendum where applicable).
- A full-system self-audit against all applicable PrimusGFS modules is completed at least annually - use the Primus Self-Audit module in this system, which scores Compliant / Non-Compliant / N/A.
- Every non-conformance automatically opens a deviation with CAPA per 1.03.03.
- Audit results are reported to site management and trended in management review.
- Follow-up audits verify closure of prior findings.

5. Records

- Audit schedule; completed checklists and self-audit submissions; CAPA log entries.
