This controlled document is maintained under the Goodness Gardens Food Safety & Quality Management System and the PrimusGFS audit scheme. It must be reviewed at least annually, after any deviation or audit finding, and whenever processes, products, or regulations change. Printed copies are uncontrolled.

1. Purpose

Monthly GMP internal audit of the facility.

2. Checklist Items

- Personnel hygiene: hairnets/beard nets worn, clean clothing, no jewelry, no eating/drinking outside designated areas
- Handwash stations stocked (soap, towels, warm water) and in use; signage posted
- Production floors, drains, walls, ceilings clean and in good repair; no condensation over product
- No flaking paint, rust, loose metal, exposed wood, or temporary repairs in product zones
- Glass & brittle plastic register current; items intact (spot check 10)
- Chemicals labeled, stored locked, away from product; SDS available; mixing records current
- Pest devices in place per map, intact, serviced; no activity observed
- Storage areas: product off floor, 18-inch wall clearance, FIFO followed, packaging protected
- Doors/dock seals close properly; no daylight gaps; outside areas free of harborage/standing water
- Pre-op, sanitation, ATP, and CCP records complete and signed for the period
- Non-conforming product identified, segregated, and on the hold log
- Trash removed on schedule; waste areas clean; lids in place
- Employee training records current for new hires in the period
- Maintenance work orders closed out food-safe (no tools/parts left, area released by QA)

3. Instructions

- Score each item C / NC / N/A with comments and photos; raise CAPA for each NC; auditee and FSQA sign.
