This controlled document is maintained under the Goodness Gardens Food Safety & Quality Management System and the PrimusGFS audit scheme. It must be reviewed at least annually, after any deviation or audit finding, and whenever processes, products, or regulations change. Printed copies are uncontrolled.

1. Objective

Ensure regulatory inspections (FDA, USDA, state, county) are handled consistently and professionally.

2. Scope

All GG facilities and all regulatory visits, announced or unannounced.

3. Responsibilities

- Site manager and FSQA Manager (or designee) host all inspections.
- Receptionist/first contact verifies credentials and notifies the host immediately.

4. Procedure

- Verify the inspector's credentials and record name, agency, and purpose.
- Notify the FSQA Manager immediately; the inspector is always accompanied.
- Provide records on request; duplicate anything provided and log what was shared.
- Take parallel photos/samples whenever the inspector does.
- Do not sign statements admitting violations without management review; corrections of obvious issues should begin immediately.
- Hold a closeout meeting, document all observations, and open CAPAs for any findings per 1.03.03.
- FSMA inspections: traceability records (FSMA 204) must be retrievable within 24 hours.

5. Records

- Inspection log; copies of anything provided; CAPA entries; agency reports.
