This controlled document is maintained under the Goodness Gardens Food Safety & Quality Management System and the PrimusGFS audit scheme. It must be reviewed at least annually, after any deviation or audit finding, and whenever processes, products, or regulations change. Printed copies are uncontrolled.

1. Objective

Assure packed product meets declared net weight requirements.

2. Scope

All packed product at GG packing facilities.

3. Responsibilities

- QA/line leads perform checks; FSQA verifies scale calibration program.

4. Procedure

- Scales are calibrated per schedule with certified weights; calibration is recorded and tags applied.
- At start-up and at defined intervals, sample packages are checked against declared net weight (tare excluded).
- Underweights stop the line: adjust fill, re-check, and rework affected product.
- Results are recorded; repeated failures open a CAPA.

5. Records

- Net weight check records; scale calibration records.
