*This controlled document is maintained under the Goodness Gardens Food Safety & Quality Management System and the PrimusGFS audit scheme. It must be reviewed at least annually, after any deviation or audit finding, and whenever processes, products, or regulations change. Printed copies are uncontrolled.*

### 1. Objective

Assess food defense vulnerabilities and define mitigation at each site.

### 2. Scope

All GG facilities, exterior grounds, and transport.

### 3. Responsibilities

- FSQA Manager + site manager complete the assessment; all employees follow security rules.

### 4. Procedure

- Site assessment covers: perimeter/exterior, access points, visitor controls, chemical storage, water systems, open product areas, shipping/receiving.
- Mitigations: locked entries with coded access, visitor log and escort, sealed trailers, chemical lockup, employee awareness training (see GG-TRN-201 food defense section).
- Suspicious activity is reported immediately and investigated; see Food Defense Challenge records.
- Assessment reviewed annually and after any security event.

### 5. Records

- Assessment; challenge exercise records (1.08.01 SA/NY); visitor logs.
