This controlled document is maintained under the Goodness Gardens Food Safety & Quality Management System and the PrimusGFS audit scheme. It must be reviewed at least annually, after any deviation or audit finding, and whenever processes, products, or regulations change. Printed copies are uncontrolled.

1. Objective

Implement FSMA 204 traceability for covered foods (leafy greens/herbs) across greenhouse and packinghouse.

2. Scope

All Food Traceability List items grown, packed, or shipped by GG.

3. Responsibilities

- FSQA Director maintains the plan; department leads capture KDEs in real time.

4. Procedure

- Critical Tracking Events (CTEs) captured: harvesting, cooling, initial packing, receiving, transformation, shipping.
- Key Data Elements (KDEs) recorded at each CTE: traceability lot code (TLC), dates, quantities/UOM, location identifiers, reference documents.
- TLC assigned at initial packing links seed lot, harvest date, line, and operator (see 2.6.01-R workbook).
- Records are electronic where possible and retrievable within 24 hours in a sortable spreadsheet for FDA.
- Mock traceability exercises validate the system with the annual mock recall.

5. Records

- Traceability workbook (2.6.01-R); shipping/receiving logs; mock recall records.
