This controlled document is maintained under the Goodness Gardens Food Safety & Quality Management System and the PrimusGFS audit scheme. It must be reviewed at least annually, after any deviation or audit finding, and whenever processes, products, or regulations change. Printed copies are uncontrolled.

1. Objective

Establish farm-level food safety, hygiene, and site management for GG growing operations.

2. Scope

All GG greenhouse and field growing locations.

3. Responsibilities

- Greenhouse/Farm manager implements; FSQA verifies through audits.

4. Procedure

- Each location has a farm food safety plan with a site map (water sources, buildings, chemical storage, toilets, neighboring land risks).
- Workers receive hygiene training at hire and annually (GG-TRN-203 GAP/Produce Safety).
- Toilets and handwash stations stocked and serviced; located per regulation; no field defecation.
- Sick workers (vomiting, diarrhea, jaundice, infected wounds) are excluded from product contact.
- Animals excluded from growing areas; intrusion monitored and documented; no harvest within contaminated zones.
- Adjacent land risks assessed annually; buffer zones where needed.
- Visitors follow hygiene rules and sign in.

5. Records

- Farm food safety plan; training records; toilet service records; intrusion logs.
