This controlled document is maintained under the Goodness Gardens Food Safety & Quality Management System and the PrimusGFS audit scheme. It must be reviewed at least annually, after any deviation or audit finding, and whenever processes, products, or regulations change. Printed copies are uncontrolled.

1. Objective

Hygiene and sanitation requirements during field/greenhouse harvest.

2. Scope

All harvest crews and harvest equipment.

3. Responsibilities

- Harvest crew leads enforce daily; FSQA audits in season.

4. Procedure

- Handwashing before harvest, after breaks/restroom; gloves where required and changed when contaminated.
- Harvest tools (knives, scissors) cleaned and sanitized at defined frequency; damaged tools removed.
- Harvest containers food-grade, cleaned per schedule, never placed directly on soil; bottom-contact surfaces controlled.
- No eating, drinking (except water in designated areas), tobacco, or glass in harvest areas.
- Product with animal contamination, decomposition, or chemical contact is not harvested - flag and report.
- Harvested product shaded and moved to cooling promptly.

5. Records

- Sanitation logs for tools/containers; crew training records.
