This controlled document is maintained under the Goodness Gardens Food Safety & Quality Management System and the PrimusGFS audit scheme. It must be reviewed at least annually, after any deviation or audit finding, and whenever processes, products, or regulations change. Printed copies are uncontrolled.

1. Objective

Sanitation procedures for greenhouse growing operations (bilingual SOP).

2. Scope

All greenhouse structures, benches, trays, tools, and irrigation systems.

3. Responsibilities

- Greenhouse manager schedules; trained crew performs; FSQA verifies.

4. Procedure

- Master sanitation schedule (3.05.01-GH) defines what, how, frequency, chemical, and responsibility for every item.
- Between crops: remove debris and media, clean surfaces, then sanitize benches/trays/floors with approved sanitizer at labeled strength.
- Irrigation/hydroponic systems flushed and sanitized per schedule to control biofilm and algae.
- Sanitizer strength verified with test strips and recorded (5.04.09 record).
- Completed tasks signed and dated on the master sheet.

5. Records

- Master sanitation sheets; sanitizer mixing/strength records.
