This controlled document is maintained under the Goodness Gardens Food Safety & Quality Management System and the PrimusGFS audit scheme. It must be reviewed at least annually, after any deviation or audit finding, and whenever processes, products, or regulations change. Printed copies are uncontrolled.

1. Objective

Harvest practices for greenhouse crops (basil, herbs, microgreens).

2. Scope

All greenhouse harvest activities.

3. Responsibilities

- Greenhouse manager; harvest leads daily.

4. Procedure

- Pre-harvest assessment: water results current, no animal intrusion, no chemical PHI conflicts, crew hygiene verified.
- Tools sanitized at start and at defined intervals; containers food-grade and labeled with TLC info.
- Ready-to-eat rules apply: bare-hand contact minimized per posted crop rules; gloves where required (GG-TRN-205).
- Harvested product moved to cooling within the defined window; temperatures recorded.
- Damaged/diseased product culled - never mixed into food lots.

5. Records

- Pre-harvest assessments; harvest logs; cooling records.
